

Calves for Hospice

We are a small province and Hospice Southland needs to raise over two million dollars annually to enable us to offer world-class palliative care to those in our community that need it most, all free of charge. We are a 100% locally based charity working in and for your community.

Hospice has been caring for residents in Southland and the Wakatipu Basin for over 25 years and your support in our Calves for Hospice fundraiser will mean it is possible for us to continue caring for the growing needs of our patients and their families in our region.

Last year in our first “Calves for Hospice” Fundraiser generous farmers across Southland raised over \$55,000 to help Hospice continue our work in your community. That’s the difference of having another Nurse in your community. **Thank you – Your support is greatly appreciated.**

How does it work?

Participating farmers raise a calf until they are weaned in late November. The calves are then picked up and sold, with all proceeds to Hospice Southland. All you need to do is commit to rearing a calf which will be weaned before the sale date.

Preference is for a Beef cross or straight Friesian calves. **This year the sale day is set for the 11th of December 2018** and calves will be picked up from your property the day before.

Please complete the registration form on the back of this flyer and send it back to Hospice Southland. Alternatively go to www.calvesforhospice.org.nz

In early December a hospice representative will contact you and advise when the calf will be collected from your farm and transferred to the Lorneville Sale Yards. You will need to tag the calf with your own EID as the calf will be sold. You will be given a hospice fundraiser ear tag so you can easily identify which calf you are donating. The calf you nominate can be either a beef or dairy breed.

Thank you to our “Calves for Hospice” Supporters:
